

ADEKUNLE OLATUNDE

AI Automation & Full-Stack Developer
n8n · Claude · AI Integrations · APIs · Next.js ·
Python

About Me

I build AI-powered applications and business automation systems that connect APIs, CRMs, databases, and business tools to eliminate repetitive manual work. I specialize in n8n workflows, AI integrations, webhooks, API automation, and full-stack applications that turn business processes into reliable digital systems.

Lagos, Nigeria

LANGUAGE

- SQL
- PYTHON
- REACT | HTML | CSS | JS

EXPERTISE

- Web APP Development
- Graphic Design
- UGC Video creation
- Cybersecurity SOC Analyst
- Cisco Implementation
- VLAN Implementation
- Firewall Implementation with Snort
- IPS,IDS,HIPS,NIDS
- Linux OS Configuration
- Wireless Implementation
- Vulnerability Tester

AI AUTOMATION & SOFTWARE PROJECTS

SELECTED PROJECTS

- Built multi-step n8n automation workflows integrating webhooks, APIs, AI processing, Google Sheets, Gmail and databases.
- Developed an AI-powered Lead Intelligence Pipeline with validation, AI scoring, database persistence and failure handling.
- Built a Website Lead Capture Automation connecting web forms, Google Sheets and Gmail with validation and error handling.
- Developed Peers AI Assistant, a full-stack AI application using Next.js, TypeScript, AI APIs and Supabase.
- Built and deployed AI-powered web applications and automation workflows using modern development tools.

EXPERIENCE

IPgrupp Engineering (ISP/ SYSTEM SUPPLIES)

Lagos- Nigeria

2003 - 2005

Hardware support,

Software support

Network support and administration

Support IT Infrastructure

Installation of Microwave radios and configurations of Cisco routers and quality of service(QOS)

Interdigital Data Network Ltd (ISP/Telecom & Software Engineering)

Lagos- Nigeria

2005 - Date

Linux System/Network administration

Data Encryption/ Firewall Implementation

IPS, IDS, NIDS, HIPS implementation

IP management and subnetting

Establish, maintain, and co-ordinate the use of LAN/ VLAN and WAN, hardware, software and related computer equipment.

Forage (Common Wealth Bank Simulation Training)
April 22nd, 2024

- Data Analysis Using Splunk
- Incident Response
- Security Awareness
- Penetration testing

SKILLS

Databases And RDBMS

- Microsoft SQL Server, MySQL (Query only)
- Operating System And Others (Installation, administration, user-support)
- Microsoft Windows Family
- Linux (kernel 2.4 series), RedHat, Fedora, Kali, VM ware,
- Microsoft Office Suite (Word, PowerPoint, Excel, Outlook, Access)

Cisco Implementation

Router & Switch Configurations, VLAN Implementation, Firewall, snort, IP addressing/Subnetting.

Tool Stack

- VS Code
- Claude Code
- Emergent
- Loveable
- CorelDRAW
- Canva
- Photoshop
- Capcut
- Elevenlabs

Cybersecurity Tools

Wireshark, Splunk, Nmap, Zenmap, Burpsuite, Netcat, OpenSSI, Veracrypt, Snort, Metasploit, Aircrack-NG

EDUCATION

University Of Nigeria

B.Sc Computer Science/ Statistics

Mak Computer Engineering College

Diploma in Computer Engineering

National Insitute Of Information Technology (NIIT)

Cybersecurity Operations

Attention Factory Hub

2026

Ai Agentic Engineering & Business Automation

CERTIFICATION

Microsoft Certified Professional **MCP** 2008
Cisco Network Associate **CCNA** 2008
Gateprotect Security Professional **GSP** 2012
Mikrotik Certified Network Associate **MTCNA** 2021
ISC2 Certified in Cybersecurity **CC** 2024
Google Cybersecurity 2024
Cisco CyberOps Associate 2024
